

Bluegill + Crappie + Trout BOOM Mix Use:

Prepare bait used on hook. BOOM Panfish works higher up in the water column as well as on the bottom. LIGHTLY - Pinch small quarter-sized amounts of BOOM Mix between your finger and thumb. These lightly pinched coins should be tossed over your float or fishing spot. (For long distance use a catapult).

If fishing from a boat - remember to anchor both front and back! Pick a spot on the far bank as your all-day target. Once you bait it, you will want to remember the spot with a marker on the far bank. Remember where you stand to throw these pinches in. Place pinches where you can easily cast to them. Toss underhand to your spot. Repeat exact throwing motion and try to land all pinches on top of each other. Every couple of minutes, fire another pinch in. Your bite should pick up.

BOOM Fish Attractant Preparation Instructions

- 1 - Empty Bread Crumb and entire packet of **BOOM** into large bowl or 2 1/2 gallon bucket
2. - Mix Dry ingredients
3. - Fill just over 1/2 can of the empty bread crumb can with water. NOT TOO MUCH WATER!!!
4. - Slowly pour water in while mixing. Mix, Mix Mix and add water SLOWLY.
5. - Continue to mix in water until all the crumb is moist - but not damp. Get all the corners in the bottom.
6. - Mix has ingredients to hold together. Pinch a quarter-sized disk and when mixed right, it will hold together so you can pitch it over your fishing spot or float. Let the action begin!
